

GrantSolutions 3.3 Release Notes – Federal Staff

General Changes

1. New tables have been implemented to accommodate creation of the Risk Assessment Survey module.
2. An enhancement has been implemented that improves performance of context sensitive help pages upon user access.
3. All references to GPT have been removed from GrantSolutions and replaced with the correct name “Grant Program.”
4. Reviewers may now download a GrantSolutions’ application single print PDF file from within RMM.
5. A performance enhancement for My Grants List has been implemented, which causes this screen to execute faster.

Edit NGA Screen

On the Edit NGA screen, the Object Class Codes now has a *drop-down* list of options that displays an Object Class Description adjacent to the codes.

Admin Module

Administrators may manage each Grant Program’s Business Review questions from a new interface accessible from the Grant Program Management screen. The Manage Review Questions screen provides the Program administrator (PA) or System Administrator (SA) with the following:

- Add a new set of questions.
- Modify any existing set of questions.
- Sort the order of the list of questions.
- Delete questions.

Figure 1 Manage Grant Programs screen.

Once a search has been performed, from the Manage Grant Programs screen:

- Select the [Manage Questions](#) link.

Description	Answer Type	Required	Action
Proof of Nonprofit status (RS Certification)	Multiple Choice	N	Edit Delete Move Down Move Bottom
Articles of Incorporation	Multiple Choice	N	Edit Delete Move Up Move Down Move Bottom
Bylaws	Multiple Choice	N	Edit Delete Move Up Move Down Move Bottom
SF 424 Application original signed and dated	Multiple Choice	N	Edit Delete Move Up Move Down Move Bottom
SF 424A Budget Information and Justification	Multiple Choice	N	Edit Delete Move Up

Available Answer Types:

- Multiple Choice (Y/N)
- Text

Questions can be added for each type of review category (Business Review, Intake Review):

1. Questions are locked down at the completion of the application; however, answers to the questions can be modified at any time up to the Notice of Grants Award draft. Once drafted, the answers are also locked down.

NOTE: Applications with a status of “Submitted” do not display on the Application Screening screen.

2. New questions added to the Business Review would then only affect new applications.
3. To delete a question, the application must be withdrawn and re-entered into the Business Review process. Once the application is withdrawn the application status returns to a “Submitted” state and selecting “Verify Completion” deletes all previous questions and answers, and re-copies the current questions.

Questions can be found on the Business Review and Intake Review screen.

Figure 3 Intake Review screen.

A Print button is located at the bottom of each Review type screen.

Selecting the **Print** button launches a print-friendly format in a pop-up window.

Manage Person

A new field has been added to the Manage Person screen that displays the Organization ID Number of the Organization that is associated with a user's name. This feature displays in the Organization (Level) column.
